5. LENGTH OF OBSERVATION <u>See Case</u>	11. BRIEF SUMMARY AND ANALYSIS  The observer's name was listed in another report as a witness to a sighting of 20 August 67. The observer replied that he had not seen any UFO's on 20 August 67, but that he had seen some on 13 July and two on 28 Aug. He gives all three reports on one form 117. The results are somewhat difficult to understand and is in general, confusing. Also the report was nearly 3 months old when submitted and because of the time involved it would be very difficult to investigate properly.

The sighting on July 13 - Showed up as just one bright Red light after watching it, it broke into smaller objects. A smaller light appeared in front of the larger one then another, at this time the large light dimmed down and disappeared. While the two smaller ones was out a third appeared and the first one to appear went away after dimming. Then the fourth one appeared. This went on for about 6 time, only to be in sight for a few seconds.

on Aug 28, at 00:10 - I spotted a bunch of red light that at first made me think that a plane was on fire. I went home and got my Binoculars, but by that time there was nothing in the sky. This was traveling west  $1\frac{1}{2}$  miles away. At 00:10 same date this object appeared again following RT 31 thru the village. It was about 1000 - 1500 ft away from RT 31 when I spotted this.

There was a Sheriff's car traveling about 30-35 mph thru the village with this object 50 ft north of it and I'd say 5 to 800 ft above it. Before I could pick up the two-way radio and have them check what was above them the lights all went out and they didn't appear again. This object was keeping the same speed as the Sheriff's car and the light stayed on.

Three Red on top with three Blue on the bottom space about 20-25 ft apart.

This looked like (6) six object as there was no solid showing or outline.

A truck driver that drives for western n. t. lines saw  
the same object that I saw on July 13 as he  
was leaving Syracuse, but I don't know his name or  
address.

Dear Sirs:

I saw no objects on the date mentioned in your letter, but I filled out your paper on objects that I saw on July 13 & Aug 3 & 8, 1967.

I'm not very good explaining things on paper, so I hope that this information can help you out. If some one would like to see them where I saw them and explain things better.

Sincerely yours,
